

CURRICULUM VITAE & RESUME

STEVE TUBBS

NAME: Steve Tubbs
POSITION: Health & Safety Officer
QUALIFICATIONS: Qualified Plant Instructor for CITB for a number of plant categories – 13 no. including demolition plant.
Examiner Status by CITB board.
NVQ Level 4
NVQ Assessor
CMIOSH
NEBOSH General Certificate

EXPERIENCE:

Steve is a highly competent and experienced Officer with practical “hands on” knowledge in the construction industry for a wide range of plant categories, including demolition. He is currently concentrating on a Health & Safety initiative to reduce AFRs for Raymond Brown Minerals & Recycling.

Steve is involved in Raymond Brown Group contracts from identifying hazards in the pre-tender plan, involvement in handover meetings, developing the site Construction Phase Plan, re-visiting the hazards previously identified and setting up effective controls to minimise Health & Safety risks.

Steve routinely visits sites across the Raymond Brown Group providing support and advice and works to ensure that all initiatives promoted by Clients are rigorously adhered to. Working with sites teams on the large projects,

The Raymond Brown team has won a number of safety awards as part of Aspires *Safety First Always Scheme* including the Annual Award for Trade Contractor of the Year, & ROSPA 2006-2007-2008. Raymond Brown Minerals & Recycling won KPMG company of the year award 2008 Steve assisting the RBMR company to purchase CAT locators (Cable Avoidance Tools) has enabled them to safely locate hidden services and the purchase of gas monitors for some sites to minimised the risk of injury & Noise monitoring equipment to evaluate areas and personal noise.

Steve takes a keen interest in developing in-house training programmes. As an accredited training provider, Raymond Brown is able to provide training for staff to CPCS standard.

Steve has developed a range of Health & Safety training modules which are delivered across all levels from Director to Site Foreman. Each module consists of a 2½ hour certificated session at either Ringwood (Raymond Brown Construction Ltd.) or Nursling (Raymond Brown Minerals & Recycling). The modules include:-

- A Induction into the Industry - Health & Safety Awareness
- B Site Managers - Roles and Responsibilities
- C Risk Assessments, Method Statements and COSHH
- D Fire
- E Lifting Accessories
